COMPOSITES TECHNICIAN TRAILBLAZER APPRENTICESHIP

Supported by

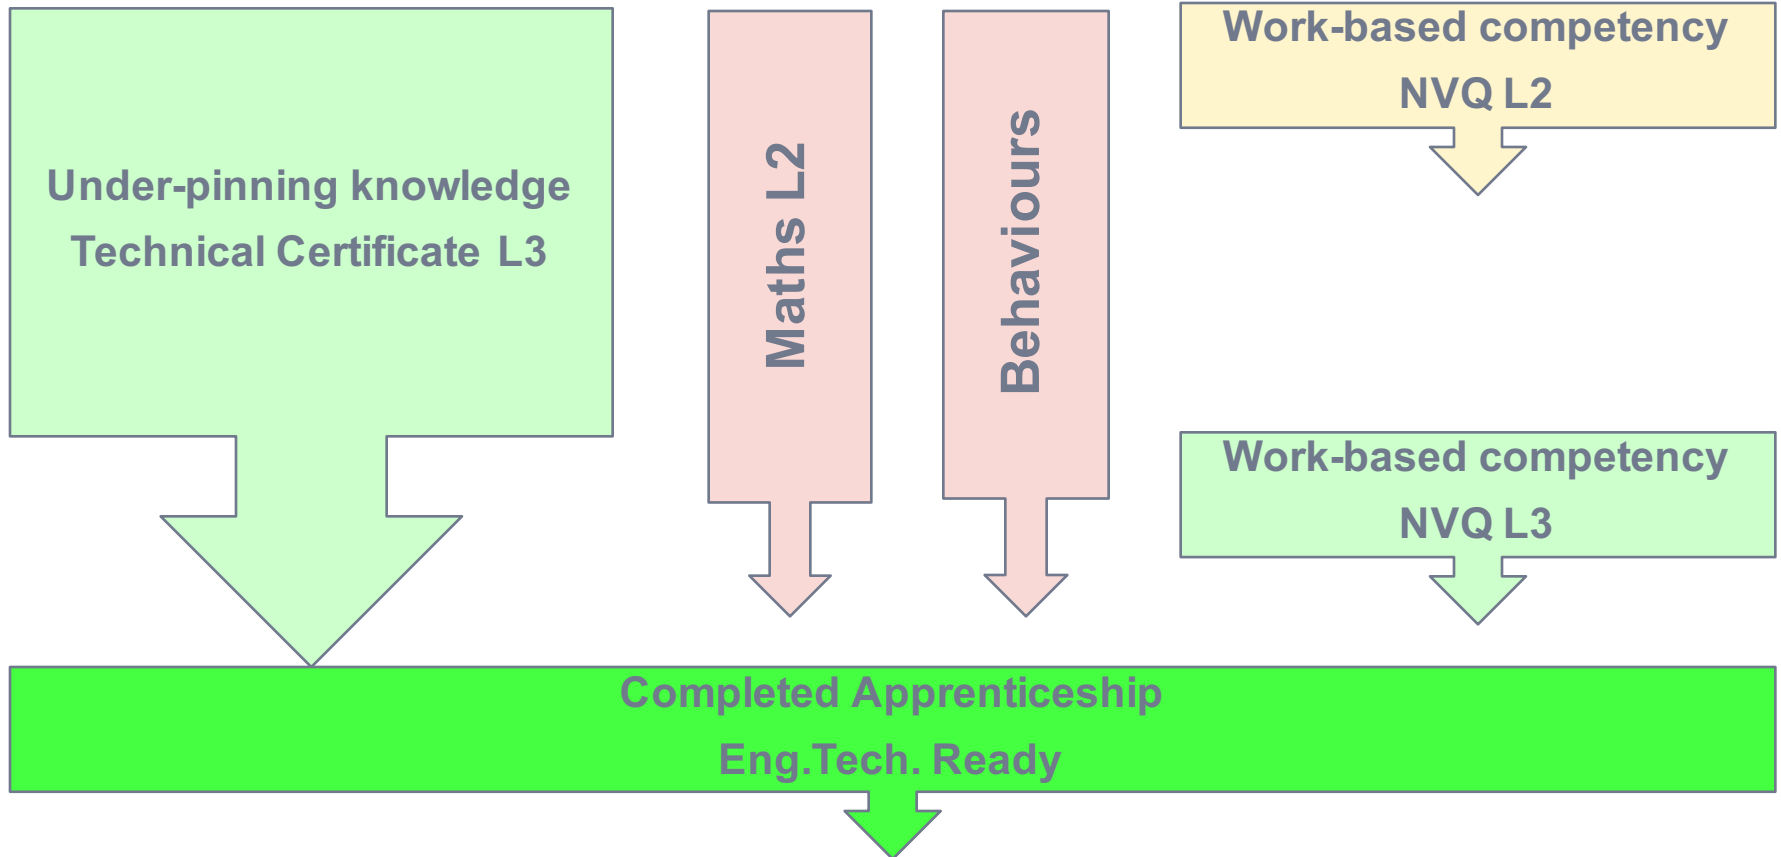

PROGRESS TO DATE

Standard Approved

Assessment Plan Approved

Awaiting Funding Allocation

36-48 Month Program

Mandatory Units

1. Understand employer H & S Policy (Inc.Statutory Regs)
2. Interpret Eng.Data and Work instructions
3. Work Effectively and Efficiently – (inc. intro. to BIT)
4. Awareness of Materials
5. Awareness of Processes –(inc.Tooling)
6. Awareness of Product Design and Applications
7. Awareness of Defects and Detection in Composites
8. Production of a Part using a Hand-lay up Technique

Optional Units – Minimum 2 required

- An understanding of Prepregs
- An understanding of Wet layup
- An understanding of RI/RTM
- An understanding of Automated Processes
- An understanding of Assemblies, Jointing, Bonding
- An understanding of Repair Techniques
- An understanding of Spray Layup
- An understanding of Curing Techniques
- An understanding of Manufacture of Materials
- An understanding of Tooling and Tool Prep.

UK Advanced Manufacturing Skills – Probable Market Failure

CURRENT AND FUTURE SHORTAGE OF SKILLED PEOPLE

UKCES Working Futures 2014-2024 - Evidence Report 100 April 2016

.... manufacturing growth will be driven by advanced (high-technology)

The availability of skilled labour will be an essential determinant of growth, and that skill shortages are a sizeable concern, and will be an important constraint on growth.

EEF Skills Report 2016 – An Up-skill Battle

73% of manufacturers experience highly skilled staff recruitment problems, particularly in the areas of engineering, design and production skills.

59% expect to need more management, leadership and production-related skills in the next three years.

CURRENT AND FUTURE SHORTFALL OF THE MEANS TO GENERATE SKILLED PEOPLE

Engineering UK 2016 - The State of Engineering

....supply data shows an annual shortfall of 29,000 people with level 3 skills and **40,000 with level 4+ skills.**

.....the UK at all levels of education does not have the current capacity or the required rate of growth needed to meet the forecast demand for skilled engineers and technicians by 2022.

More than 80% of the workforce of 10 year's time is already in work. Apprenticeships / Graduates are essential, Up / Re – skilling is critical.

**“WE HAVE A SKILLS CHALLENGE IN GERMANY, YOU HAVE A SKILLS CRISIS IN THE UK”
(Wright Report 2014)**

INCREASING THE PROVISION

NCC-Train the Trainer Program

INCREASING THE PROVISION

**Modular 8 Day Program
Delivered at NCC or Regional centres**

Turn-Key Solution
(To include training moulds and manuals)

Flexible Delivery ?

8 x 1 day

4 x 2 day

2 x 4 day
